

Erratum

In the paper “Bad Lattice Points” by K. Entacher, T. Schell and A. Uhl (Computing 75, 281–295, 2005) Definition 2 on page 203 should have been published as follows:

Definition 2: *A Lattice rule is defined to deliver “bad lattice points” with respect to a threshold-vector $\mathbf{t} = (t_1, \dots, t_s)$ iff $\exists i : S_i > t_i$.*
